KIM IL-SONG SENDS BIRTHDAY GREETINGS TO JSP'S TOMOMI NARITA

Pyongyang KCNA in English 1000 GMT 16 Sep 77 OW

[Text] Pyongyang, September 16 (KCNA)--The great leader Comrade Kim Il-song, general secretary of the Central Committee of the Workers' Party of Korea, sent a message of greetings to Tomomi Narita, chairman of the Central Executive Committee of the Japan Socialist Party, on his 65th birthday.

The message said:

I, in the name of the Central Committee of the Workers' Party of Korea and in my own name, extend warm congratulations and cordial greetings to you on your 65th birthday.

You, holding the important post of chairman of the Japan Socialist Party for a long period, have waged an unyielding struggle against the U.S. imperialist policies of aggression and war and the militarization of Japan and for the achievement of the country's complete independence, peace, democracy and neutrality.

You are still today devotedly struggling against U.S. imperialism and monopoly capital of Japan and for defence of the vital rights of the working people.

This struggle waged by you along with the Japan Socialist Party is a righteous struggle for guaranteeing the sovereignty of Japan and the democratic development of society and, for this, you enjoy deep trust and respect from broad strata of the Japanese people and working masses.

You also have done a lot of work in support of our people's cause of national reunification.

You have actively struggled against the U.S. imperialist occupation of South Korea and the "two Koreas" plot of the splittists within and without and for the independent and peaceful reunification of our country, the development of the friendly relations between the peoples of Korea and Japan and in defence of the democratic, national rights of Koreans in Japan.

Availing myself of this opportunity, I express deep thanks to you, Mr Chairman, noting with satisfaction that you and the Japan Socialist Party have always extended positive support and encouragement to the just cause of our people.

Believing that the excellent friendly and cooperative relations established between our two parties will as ever grow stronger and develop through the common struggle against imperialism policies of aggression and war and for the development of the friendly relations between the peoples of the two countries, I heartily wish new success to you and your party in the future work and good health to you.

REPORT ON VISIT OF EQUATORIAL GUINEAN PRESIDENT

Pyongyang Welcoming Rally

Pyongyang KCNA in English 1119 GMT 17 Sep 77 OW

[Text] Pyongyang, September 17 (KCNA)--A grand Pyongyang mass meeting was held at the Pyongyang indoor stadium this afternoon in welcome of the party and government delegation of the Republic of Equatorial Guinea headed by his Excellency Bijogo Nguema Ndong Macias Nguema, chairman of the Central Committee of the National United Workers Party of Equatorial Guinea and life president of the Republic of Equatorial Guinea.

The great leader of our party and our people Comrade Kim Il-song and his wife attended the mass meeting together with His Excellency Bijogo Nguema Ndong Macias Nguema and his wife.

Present at the meeting were a large number of working people in Pyongyang.

Put with due respect on the platform were a portrait of the great leader Comrade Kim Il-song and a portrait of President Bijogo Nguema Ndong Macias Nguema.

The great leader Comrade Kim Il-song, in company with President Bijogo Nguema Ndong Macias Nguema, appeared on the platform to the strains of the welcome music.

That moment the attendants broke into stormy cheers of "manse" (hurrah) and a thunderous applause, rocking the stadium.

Comrade Chong Chun-ki, chairman of the Pyongyang Municipal People's Committee, spoke first at the meeting.

President Bijogo Nguema Ndong Macias Nguema spoke next.

The meeting powerfully demonstrated the friendship and solidarity forged between Korea and Equatorial Guinea under the banner of anti-imperialism and independence.

President's Wife Visits Nursery

Pyongyang KCNA in English 1624 GMT 16 Sep 77 OW

[Text] Pyongyang, September 16 KCNA --Madame Bindang Bijogo Nguema Ndong Macias Nguema, wife of His Excellency Bijogo Nguema Ndong Macias Nguema, chairman of the Central Committee of the National United Workers Party of Equatorial Guinea and life president of the Republic of Equatorial Guinea, on a visit to our country, inspected the Pyongyang September 15 Weekly Nursery on September 15.

Some members of the party and government delegation of the Republic of Equatorial Guinea and its suite also inspected the nursery.

The guests were accompanied by Comrade Kim Song-ae, chairman of the Central Committee of the Democratic Woman's Union, and personages concerned.

A festive mood prevailed in the weekly nursery that day.

Hearing the story about the great leader Comrade Kim Il-song's deep love and solicitude for the children and women, the guests went round modern facilities of the nursery.

The guests were deeply impressed to see in various rooms our lovely children stoutly growing up, cultivating wisdom and talents, under the loving care of the respected and beloved leader.

Departure of Delegation

Pyongyang KCNA in English 0343 GMT 18 Sep 77 SK

[Text] Pyongyang, September 18 (KCNA)--The party and government delegation of the Republic of Equatorial Guinea headed by His Excellency Bijogo Nguema Ndong Macias Nguema, Workers Party of Equatorial and life president of the Republic of Equatorial Guinea, left here on September 18 by special plane after successfully concluding its official visit to our country which it paid on the invitation of the great leader Comrade Kim Il-song, general secretary of the Central Committee of the Workers' Party of Korea and president of the Democratic People's Republic of Korea.

Comrade Kim Il-song, the great leader of our party and our people, and his wife came to the airport and warmly saw off President Bijogo Nguema Ndong Macias Nguema and his wife.

A grand farewell function was held at the airport in honour of the party and government delegation of the Republic of Equatorial Guinea headed by President Bijogo Nguema Ndong Macias Nguema. The great leader Comrade Kim Il-song firmly shook hands with President Bijogo Nguema Ndong Macias Nguema and warmly hugged him at parting. The life president of the Republic of Equatorial Guinea got into the plane amid the warm cheers of the crowd wishing him bon voyage. The special plane left the airport at 11 A.M.

Joint Communiqué

Pyongyang KCNA in English 0425 GMT 19 Sep 77 SK

[Text] Pyongyang, September 19 (KCNA)--A joint communiqué of the Democratic People's Republic of Korea and the Republic of Equatorial Guinea was released in Pyongyang on September 18.

The joint communiqué says:

On the invitation of Comrade Kim Il-song, general secretary of the Central Committee of the Workers' Party of Korea and president of the Democratic People's Republic of Korea, the party and government delegation of the Republic of Equatorial Guinea headed by His Excellency Bijogo Ngué Ndong Macias Nguema, chairman of the Central Committee of the National United Workers' Party of Equatorial Guinea, life president of the republic and head of state and People's Revolutionary Government of Equatorial Guinea, paid an official visit to the Democratic People's Republic of Korea from September 15 to 18, 1977.

During the visit talks were held between Comrade Kim Il-song, general of the Central Committee of the Workers' Party of Korea and president of the Democratic People's Republic of Korea, and His Excellency Bijogo Ngué Ndong Macias Nguema chairman of the Central Committee of the National United Workers' Party of Equatorial Guinea, life president of the republic and head of state and People's Revolutionary Government of Equatorial Guinea, the communiqué notes, and continues:

The talks proceeded in a very friendly atmosphere and a unanimity of views was reached on the questions discussed there.

At the talks the two sides informed each other of the situation in their respective countries and exchanged views on the question of further strengthening and developing the relations of friendship and cooperation between the two countries and on the international problems of common concern.

The two sides expressed satisfaction over the steady development of the relations of friendship and cooperation between the peoples of Korea and Equatorial Guinea in conformity with the main trend of the present times when many countries of the world are taking the road of independence and agreed upon further expanding and developing these relations in many fields in the future.

The Equatorial Guinean side highly appraised the brilliant successes and experiences the Korean people have gained in the socialist revolution and the socialist construction of embodying the chuche idea under the most correct and tested leadership of the great leader Comrade Kim Il-song and expressed the hope that they would achieve greater successes in the future struggle for the complete victory of socialism.

It expressed full support and solidarity for the Korean people in their struggle to realize the independent and peaceful reunification of the country and held that the question of Korea's reunification should be solved in accordance with the three principles and five-point policy of national reunification set forth by the respected and beloved leader Comrade Kim Il-song.

The Equatorial Guinean side denounced the "two Koreas" plot of the imperialists and their stooges and their arms build-up in South Korea and strongly maintained that the United States should completely withdraw all its troops from South Korea pursuant to the resolutions on the Korean question adopted at the 30th session of the U.N. General Assembly and the 5th summit conference of non-aligned countries.

The Korean side highly appreciated the energetic struggle which the people of Equatorial Guinea are now carrying on to liquidate the aftermaths of the Spanish colonial rule, build a new society and smash the ceaseless subversive activities and sabotages of the Spanish ruling forces to obstruct and blockade the Republic of Equatorial Guinea, the National United Workers' Party and the People's Revolutionary Government, solving their problem on their own efforts under the most correct and seasoned leadership of His Excellency Bijogo Negue Ndong Macias Nguema, the supreme leader of the people of Equatorial Guinea, and wished them greater successes in their future struggle.

The Korean side expressed support and solidarity for the Equatorial Guinean side, condemning the Spanish reactionaries for conducting internationally a slander campaign against the government and people of Equatorial Guinea and their supreme leader His Excellency Bijogo Negue Ndong Macias Nguema in an attempt to conceal the crimes committed by the Spanish imperialist government against the valiant people of Equatorial Guinea and its massacre and harsh exploitation of people of Equatorial Guinea during the colonial rule and mislead world public opinion.

The Korean side fully supported the government of the Republic of Equatorial Guinea pursuing a correct anti-imperialist policy of strict neutrality, freedom and independence, a non-aligned policy, externally.

The two sides, analysing the present international situation, assessed that the present era is an era of independence and it is an irresistible main trend of our times for an increasing number of countries in the world to take the road of independent development.

The two sides denounced the imperialists for making desperate efforts to get rid of the position where they are going to bankruptcy and ruin with each passing day and obstinately clinging to their scheme to divide and disintegrate the non-aligned countries, the developing countries.

The imperialist, neo-colonialist and dominationist forces are trying to drive a wedge between non-aligned countries, alienate them, make them clash each other and win these countries over to their side.

In view of this situation the two sides stressed the need for the non-aligned countries to heighten vigilance against the splitting and alienating machinations of the foreign dominating and oppressive forces and step up their united action in the struggle against them.

The two sides deemed it necessary for the non-aligned countries to firmly unite politically, closely cooperate with each other economically and further intensify the common struggle to destroy the old international economic order and establish a new fair international economic order corresponding to the genuine interests and will of the developing countries and the world progressive peoples.

The two sides expressed full support and solidarity for the Asian people in their struggle against the imperialist aggression and intervention and all forms of domination and inequality and for the countries, independent development, and for the entire African people in their struggle for the complete liberation and unity of Africa, and voiced full support to the struggle of the Palestinian people and other Arab people, the joint communique says, and goes on:

The two sides expressed the conviction that the non-aligned countries and the developing countries will struggle in unity and thus contribute to the building of a new world free from imperialism, neo-colonialism, dominationism, racism, exploitation and oppression.

The head of Equatorial Guinea formally invited the great leader Comrade Kim Il-song, president of the Democratic People's Republic of Korea, to pay a state visit to the Republic of Equatorial Guinea.

Comrade President Kim Il-song accepted this invitation with pleasure and said that the date of the visit would be fixed in the future.

'NODONG SINMUN' WELCOMES VISIT OF BURMA'S NE WIN

Pyongyang KCNA in English 0438 GMT 20 Sep 77 SK

[Text] Pyongyang, September 20 (KCNA)--Papers here today run editorials warmly welcoming his excellency U Ne Win, president and chairman of the Council of State of the Socialist Republic of the Union of Burma, who is paying a state visit to our country upon the invitation of the respected and beloved leader Comrade Kim Il-song, president of the Democratic People's Republic of Korea.

An editorial of NODONG SINMUN says that the Korean people warmly welcome with happy feelings the visit of President U Ne Win, their close friend, to our country.

It declares:

The visit of President U Ne Win to our country upon the invitation of the great leader Comrade Kim Il-song will mark a momentous milestone in consolidating the friendly and cooperative relations established between Korea and Burma and developing them to a higher stage and a great support and inspiration to the just cause of our people fighting to accelerate the independent and peaceful reunification of the country, and it will help towards strengthening the solidarity of the peoples of the developing countries in Asia who advocate independence.

The Burmese people are today registering great successes in the work of consolidating the country's independence and building the national economy and national culture under the correct leadership of President U Ne Win, their outstanding leader.

The Socialist Republic of the Union of Burma is pursuing an "independent foreign policy" in its external relations.

Our people genuinely rejoice, as over their own, over the achievements made by the friendly Burmese people in consolidating the national independence and building a new society and heartily wish them greater successes in their future struggle for the independent development and prosperity of the country.

The Korean and Burmese peoples understand and support each other and cooperate with each other on the same road of advocating independence and building a new prosperous society.

The Burmese people have a high opinion of the shining successes our people have made in the revolution and construction by applying the immortal chuche idea under the wise leadership of the great leader Comrade Kim Il-song and support our people's cause of justice.

The Burmese Government actively supports the struggle of our people to reunify the country independently and in a peaceful way, without any interference of outside forces, and is making sincere efforts in the international arena in support of the just national reunification policy of our party and the government of our republic.

Our era today is a new era in history, an era of independence, in which the age-old desire of mankind to enjoy independence is being brought to realization everywhere in the world, stresses the editorial.

It continues:

The imperialists and colonialists resort to aggression and interference in all parts of the world and attempt to turn away particularly the non-aligned countries from the road of anti-imperialism and independence and place them under their domination and control. The situation obtaining today demands the non-aligned countries and the world progressive people to advocate independence and closely unite against all forms of aggression and interference, subjugation and inequality.

The Korean people will strive to strengthen friendship and solidarity with the Burmese people and firmly join hands with the world progressive people for the cause of anti-imperialism and independence.

NODONG SINMUN' CONDEMNS ALLEGED SR-71 INCURSIONS

Pyongyang KCNA in English 0420 GMT 21 Sep 77 SK

[Text] Pyongyang, September 21 (KCNA)--NODONG SINMUN and MINJU CHOSON today in their commentaries lash at the hostile acts of a U.S. high-speed high-altitude reconnaissance plane.

As already reported, the U.S. imperialist aggression forces perpetrated espionage and hostile acts by sending twice an "SR-71" high-speed high-altitude reconnaissance plane into the coastal air above Musudan, North Hamgyong Province, inside the military boundary between 22 hours 18 minutes, September 19, and zero hour 18 minutes, September 20.

The commentary of NODONG SINMUN says that this grave military provocation on the part of the U.S. imperialist aggressors was an intentional and premeditated one aimed at throwing cold water on the public opinion at home and abroad that calls for the withdrawal of the U.S. troops, rendering the situation strained in Korea and speeding up the preparations for a war.

It goes on:

We sternly condemn the thoughtless acts of the U.S. imperialists who, challenging the demand of the times and desire of the people, are disturbing peace in Korea and leading the situation to a dangerous phase. The hostile acts of the U.S. high-speed high-altitude reconnaissance plane apparently show once again that the aggressive nature of U.S. imperialism has not changed.

The commentary recalls that behind the loud talk about "phased pullback" of the U.S. ground forces from South Korea, the U.S. imperialists are reinforcing their air forces in and around South Korea, increasing the puppet army strength, reinforcing its equipment and carrying out ceaseless military exercises.

It points out:

The never ceasing war racket in South Korea once again reveals the intention of the U.S. imperialists to increase tension and justify their policy of military occupation in South Korea and, at the same time, to step up their policies of aggression and war in Korea.

The infiltration of a high-speed high-altitude reconnaissance plane into the coastal air above Musudan by the U.S. imperialists for espionage and hostile acts against us was an open manifestation of such intention, which shows that they are brewing a new military plot against our people.

In recent years alone, the U.S. imperialists carried out espionage on many occasions by sending high-speed high-altitude reconnaissance planes into the air above the land and sea of our country.

The repeated military provocations of the U.S. imperialists are very grave and reckless acts that threaten and disturb peace in Korea and might create an unexpected situation.

The U.S. imperialists must stop their hostile acts against our people, not forgetting the lesson of the incident of the "EC-121" plane which was downed while committing espionage in the air space of our country, and immediately get out of South Korea.

If they persist in the policy of reckless military adventures, they will be held responsible for the consequences arising therefrom.

PROCEEDINGS OF INTERNATIONAL SEMINAR ON CHUCHE IDEA

Third-Day Session

Pyongyang KCNA in English 1727 GMT 16 Sep 77 OW

[Text] Pyongyang, September 16 (KCNA)--The afternoon sitting of the third-day session (September 16) of the international seminar on the chuche idea now open here was addressed by 12 delegates including Genard Carnero Checa, general secretary of the Latin American Federation of Journalists; head of the government delegation of the Republic of Mali Mustapha soumare, minister of national education of the Republic of Mali; head of the Japanese delegation for the study of the chuche idea Dr Kaoru Yasui, chairman of the Japan-Korea Solidarity Committee of Social Scientists and professor of the Hosei University, Japan; head of the delegation of the Spanish Communist Party Armando Lopez Salinas, member of the Executive Committee of its Central Committee; head of the delegation of the Cyprus Socialist Party Chrysanthos Savvides, its special secretary; and Frances Beal, chairman of the "U.S. chuche study group" and general manager of the U.S. newspaper "GUARDIAN."

In their speeches they stressed in unison that the chuche idea founded by the great leader President Kim Il-song is a unique idea based on the philosophical principle that man is the master of everything and decides everything and an encyclopedic guiding idea which gives scientific answers to all the questions raised by our era, the era of independence.

Close of Seminar

Pyongyang KCNA in English 1056 GMT 19 Sep 77 OW

[Text] Pyongyang, September 19 (KCNA)--The international seminar on the chuche idea which opened on September 14 at the People's Palace of Culture in Pyongyang, the capital of the Democratic People's Republic of Korea, successfully concluded its work on September 17.

The whole course of the Pyongyang international seminar, which continued for four days with the attendance of 89 delegations and delegates from 73 countries and four international organizations, demonstrated once again the profound philosophical principle and rich content of the chuche idea, the founding of which reflects the demand of the era of independence, a new era in history, and attested to its correctness and vitality, and showed the earnest desire

and firm determination of the attendents of the seminar, the pioneers of our times who set about deeply studying and grasping the chuche idea and successfully applying it to practical activities.

A historic Pyongyang Declaration was adopted at the closing session.

The Pyongyang Declaration proved that history is vigorously advancing on the track of independence and convincingly expounded that the chuche idea, reflecting the demand of the era of independence, is a great guiding idea and a powerful theoretical and practical weapon which gives comprehensive answers to all problems arising in the revolutionary struggle and the work of construction and leads the peoples along the road of victory.

The Pyongyang international seminar approved the proposal of the speakers, reflecting the ardent wishes of the people to search the truth of the chuche idea and study and grasp it and the matured demand for the formation of an international organization to help in it, and formed a 9-member organizing committee to set up an international organization to study the chuche idea.

The attendents of the Pyongyang international seminar expressed their boundless respect and reverence for the great leader Comrade Kim Il-song, the founder of the chuche idea, and they adopted at the closing session a letter to the great leader Comrade Kim Il-song carrying their deepest reverence with enthusiastic applause.

The fourth-day session was presided over by Genaro Carnero Checa, general secretary of the Latin American Federation of Journalists, who is a member of the organizing committee of the seminar.

There were read out at the session messages of greetings to the great leader Comrade Kim Il-song from Habimana Bonaventure, general secretary of the National Revolutionary Movement for Development of Rwanda, and Vorgulv Frowin, vice-chairman of the Socialist Left Party of Norway, on the international seminar on the chuche idea.

Many messages of greetings to the great leader and to the seminar from political parties, public organizations, groups for the study of the chuche idea, prominent public figures and men of academic circles of different countries were introduced.

The discussion continued at the session.

The floor was taken by head of the delegation of Korean scientists in Japan Pak Yong-kon, dean of a faculty of the Korean University; head of the delegation of the Party of National Unity and Progress of Burundi Daniel Nyambariza, member of the Political Bureau of its Central Committee and professor of the Bujumbura University; member of the party and government delegation of the Syrian Arab Republic Mazhar Anbari, ex-minister of justice of the Syrian Arab Republic; head of the government delegation of the Central African Empire

Jean Sebiro, minister of state of the imperial court and personal councilor of the imperial majesty; head of the delegation of the "Lebanese Group for Studying Kimilsongism" in Lebanon Chawki Ajami, chairman of the Central Committee of the "Lebanese Group for studying Kimilsongism" in Lebanon; head of the delegation of the Socialist Left Party of Norway Steinar Stjerno, member of the Executive Committee of its Central Committee; head of the party and government delegation of the People's Republic of Benin Moussa Bajo Ali-Traore, member of the Central Committee of the Party of the People's Revolution of Benin and Ambassador of the People's Republic of Benin to the Democratic People's Republic of Korea, Ian Donald Borrie, national vice-chairman of the New Zealand-DPRK Society.

Head of the delegation of the United National Front political organization of the People's Democratic Republic of Yemen Nagi Salem Brak, member of its Central Committee; head of the government delegation of the Democratic Republic of Sao Tome and Principe Celestino Rocha da Costa, minister of national education, sports and justice of the Democratic Republic of Sao Tome and Principe; head of the delegation of the People's Republic of Bangladesh Kazi Zafar Ahmed, secretary general of the United People's Party of Bangladesh, president of the workers federation of Bangladesh and editor of the weekly "NAYA JUG"; head of the Gambian People's Progressive Party and government delegation Abdou Rahman Sallah, chairman of the Gambian People's Progressive Party youth movement; government delegate of the Yemen Arab Republic Ahmed Mohamed Haider, general director of the Political Department of the Foreign Ministry of the Yemen Arab Republic; Adly Barsoum, deputy editor-in-chief of the Egyptian newspaper "AL-JUMHURIYAH"; Alfred Eibel, chief of the "Group for the Study of the Works of President Kim Il-song" in Paris and editor of the "Alfred Eibel" publishing house; head of the government delegation of the Federal Republic of Nigeria A.O. Olusesi, deputy director of a department of the Ministry of Information and Culture of the Federal Republic of Nigeria.

Party and government delegate of the Republic of Guinea-Bissau Nicandro Pereira Barreto, director of the Ministry of Justice of Guinea-Bissau, member of the party committee of the autonomous sector of Bissau responsible for information and propaganda; head of the government delegation of the Republic of Senegal Fall Mamadou, first councilor of the Senegalese Embassy in Peking; delegate of the Chilean Left-Wing Revolutionary Movement Renato Araneda, leader of the Central Committee of the Chilean Left-Wing Revolutionary Movement and deputy chief of the External Committee of its Central Committee; delegate of the General Confederation of Labour of Reunion Payet Bruny, member of the Political Bureau of the Central Committee of the Communist Party of Reunion and general secretary of the General Confederation of Labour of Reunion; Paifllah Alhamoud, director and editor-in-chief of the Jordanian weekly "AL-SAHAFI"; Bhugaloo Heeralall, director of the Port Louis High School of Mauritius.

Delegate of the Arab-Lawyers Union Amin el Tahir el Shibli, deputy secretary-general of the Arab-Lawyers Union; Mahoma Mwaungulu, chairman of the "Group for the Study of the Works of Comrade Kim Il-song" in Europe; Fadiel Abeyed, director general of the press organization of the Arab Gulf Information; Prof

Jose Rafael Nunez Tenorio, director of philosophical faculty of the Central University of Venezuela; and Daisy Bona-Allen, managing editor of the Sierra Leonean newspaper "FLASH" and assistant secretary-general of the Association of Sierra Leonean Journalists.

Many delegates presented their speeches in writing.

In his speech the head of the delegation of the "Lebanese Group for Studying Kimilsongism" in Lebanon stressed the necessity of forming a specialized international scientific institution for the study of the chuche idea and announced that a congress of Kimilsongism would be held in November in his country and a specialized dissemination centre of the revolutionary ideas of Comrade Kim Il-song would be founded in Lebanon.

In his speech the head of the delegation of the Gambian People's Progressive Party and government proposed that faculties of the chuche idea be set up at Korean institutions of higher learning for foreign students, particularly for students of Third World countries, and assistance be given in every way in the study of the chuche idea in the Democratic People's Republic of Korea, the homeland of the chuche.

Mahoma Mwaungula, chairman of the "Group for the Study of the Works of Comrade Kim Il-song" in Europe in his speech pointed to the great vitality of the chuche idea. When he loudly shouted "Chuche, Kim Il-song" and proposed to sing "Song of General Kim Il-song" in reverence for the great leader President Kim Il-song, all the attendants rose from their seats and responded to it with enthusiastic applause and loudly chorused "Song of General Kim Il-song."

The head of the delegation of the People's Republic of Bangladesh proposed in his speech to institute "Day of Korean Reunification" to organize and mobilize the peoples throughout the world in support of the struggle of the Korean people for the reunification of the country.

The managing editor of the Sierra Leonean newspaper "FLASH" called upon all countries studying the chuche idea to organize committees for supporting Korea's reunification and widely conduct the movement for promoting the reunification of Korea and shouted the slogan "Yankee, go home!" in which all the attendants joined in chorus.

Whenever speakers, concluding their speeches, shouted the slogan "Long live the great leader President Kim Il-song!" and reverently wished good health and a long life to President Kim Il-song who founded the chuche idea, the attendants all rose to their feet and broke into enthusiastic cheers and stormy applause.

Dr Shakir al-Fahham, minister of education of the Syrian Arab Republic, who is chairman of the organizing committee of the seminar, made a closing address. He pointed out with satisfaction that the Pyongyang session of the international seminar on the chuche idea was held in conformity with the

desire and expectation of the progressive people of the world and achieved the success hoped for. Declaring the seminar closed, he reverently wished good health and a long life to the great leader President Kim Il-song, the founder of the chuche idea.

When he concluded his closing address with the slogan "Long live the chuche idea, the ever-victorious militant banner!" all the attendants rose to their feet and warmly hailed the success of the seminar with cheers and thunderous applause. The seminar closed with the national anthem of our country.

ACTIVITIES OF MADAGASCAR GOVERNMENT DELEGATION REPORTED

Foreign Minister Remi Speech

Pyongyang KCNA in English 1749 GMT 19 Sep 77 OW

[Text] Pyongyang, September 19 (KCNA)--Head of the government delegation of the Democratic Republic of Madagascar Richard Christian Remi, member of the Political Bureau of the Central Committee of the Revolutionary Vanguard and foreign minister of Madagascar, called for exposing and denouncing the "two Koreas" plot of the imperialists and their accomplices and stooges on every occasion.

Speaking at the solidarity meeting supporting the independent and peaceful reunification of Korea held in Pyongyang on September 18 by 86 delegations and delegates from 72 countries and four international organizations, he pointed out: We should foil the fantastic dream of the imperialists and their accomplices and stooges for admission of "two Koreas" to the United Nations.

The imperialists, in league with the South Korean puppet clique, have turned South Korea into a foreign military base, into a cauldron leading humanity to destruction and into a huge prison notorious for the violation of human rights.

We all should make positive efforts to achieve the speedy reunification of Korea and thus ease the tension in Asia and consolidate world peace.

Three years have passed since the adoption of a resolution favourable to the DPRK at the 30th session of the UN General Assembly. But, the imperialists, as they do not easily give up their habit, ignore this resolution of the highest international organization and abuse the UN right and keep the so-called "UN Command" under the UN flag. They are trying to gain time and intensifying reckless provocative machinations. It is intolerable that the resolution of such an important international community has not borne fruit.

As the resolution demands the disbandment of the "UN Command" and particularly the withdrawal of the U.S. troops from South Korea, our struggle will make a

contribution to the fulfillment of our duty as UN members and thus to the opening of the gate to the reunification of Korea and the ensurance of peace.

Exchange of Banquet Toasts

Pyongyang KCNA in English 0421 GMT 20 Sep 77 SK

[Text] Pyongyang, September 20 (KCNA)--Richard Christian Remi, member of the Political Bureau of the Central Committee of the Revolutionary Vanguard of Madagascar and foreign minister of the Democratic Republic of Madagascar, arranged on September 19 a banquet at the People's Palace of Culture in connection with the visit to our country of the government delegation of the Democratic Republic of Madagascar. Invited to the banquet were Comrade Ho Tam and his wife and personages concerned.

Head of the delegation Richard Christian Remi made a toast at the banquet. In his toast he said:

We attended the international seminar on the chuche idea held in the Democratic People's Republic of Korea, the bulwark of socialism and the advance base of revolution and, in this course, trained and armed ourselves ideologically for our strenuous common struggle against imperialism, colonialism and racism.

The seminar made the torch of chuche flare up higher and its banner fly more vigorously on all the continents and in an increasing number of revolutionary and peace-loving countries.

Our participation in the seminar and our official visit to Korea constituted a logical and natural continuation of the seminar held in Antananarivo last year and of the state visit of President Didier Ratsiraka to the Democratic People's Republic of Korea.

The Malagasy people firmly believe, above all, in the firm friendship existing between our two heads of state and our two peoples. We consider that our current stay marked a momentum to strengthen and develop these relations. I therefore affirm that the Malagasy people, who are faithful to the democratic principles and love peace, justice, progress and freedom, have always supported and are supporting and will support the fraternal Korean people to see their supreme national desire realized.

The Malagasy delegation was very much impressed by the fact that the organizers of the international seminar on the chuche idea arranged the seminar under the patronage of President Didier Ratsiraka and made Madagascar a member of the organizing committee of the International Organization for the Study of the Chuche Idea, thereby according it a double honour. We will remain true to this trust in Madagascar.

The Malagasy delegation, my wife and myself had the great privilege of an audience with His Excellency President Kim Il-song, the respected and beloved leader of the Korean people, so we were able to directly convey to the father of the chuche idea the regards and words of deep respect from his friend and comrade-in-arms President Didier Ratsiraka.

Through our Korean visit we could notice at first hand the extraordinary talents of the valiant Korean people, he pointed out, and continued: We could witness a modern socialist state they have built in the land which had been reduced to a debris by the imperialist forces.

Comrade Ho Tam made a toast next. In his toast he said:

The visit to our country of the government delegation of the Democratic Republic of Madagascar has greatly helped towards bringing into fuller bloom the excellent friendly relations existing between the peoples of Korea and Madagascar.

Comrade Kim Il-song, the great leader of our people, received and had a cordial and friendly talk with you. Your Excellency Foreign Minister has done a lot of work for the successful seminar as a member of the organizing committee of the international seminar on the chuche idea.

In particular, His Excellency President Didier Ratsiraka, the outstanding leader of the Malagasy people, in the capacity of honorary chairman of the organizing committee of the international seminar on the chuche idea, extended warm congratulations to the great leader Comrade Kim Il-song, the founder of the immortal chuche idea, and sent an inspiring congratulatory message to the organizing committee of the seminar.

Indeed, the international seminar on the chuche idea in Pyongyang was a historic event which demonstrated the truth, universality and the invincible vitality of the chuche idea, the great idea reflecting the trend of the present times, the era of independence.

At the seminar Your Excellency Foreign Minister highly appraised the chuche idea and analyzed with perfect logic and successes and experiences gained by the Malagasy socialist revolution under the banner of the chuche idea, thus deeply impressing the attendants of the seminar and the Korean people.

Your Excellency Foreign Minister highly appreciated the successes the Korean people under the wise leadership of the great leader Comrade Kim Il-song have made in the socialist revolution and construction by embodying the immortal chuche idea and expressed full support and solidarity for the Korean people in their just struggle for the country's independent and peaceful reunification.

In this connection I would like to express deep thanks to you and, through you, to respected His Excellency President Didier Ratsiraka, the Malagasy Government and people. We will actively strive to expand and develop the

relations of friendship and cooperation with the fraternal Malagasy people in many fields in the future, too.

The attendants of the banquet drank a toast to the indestructible, militant friendship and unity between the Korean people and the Malagasy people, to the good health and long life of the great leader of our people Comrade Kim Il-song and to the good health and long life of President Didier Ratsiraka, the outstanding leader of the Malagasy people.

The banquet proceeded in a friendly atmosphere.

[Article by Yi Sok-yun: "National Cultural Construction Among Newly Emerging Countries Is a Revolutionary Struggle for Building a Prosperous Sovereign Independent State"]

[Text] People in today's newly emerging states are engaged in the struggle to consolidate their national independence and the construction of national economy while endeavoring to develop their national culture.

The great leader Comrade Kim Il-song taught as follows:

"In order to achieve complete independence and prosperity of a people and insure a happy life for people, political sovereignty must be upheld and economic self-sufficiency achieved while developing the national culture on a full scale." ("Answers to Questions Asked by Foreign Reporters," Vol 2, p 202)

The struggle being waged by newly emerging countries to develop national culture is a revolutionary battle aimed at eliminating the cultural backwardness inherited from the past colonial rule, thereby creating a new life and constructing a prosperous sovereign independent state.

Culture assumes a very important position in the life of the people and their development. Without a real culture, we cannot talk about a civilized and happy life, prosperity and progress of the people.

It is prerequisite to the construction of a new world for newly emerging states to remove the cultural backwardness inherited from the past colonial rule and develop a new national culture.

Today, many independent nations in Asia, Africa and Latin America are culturally backward after being subjected to the long colonial rule of imperialists and colonialists.

In the past, imperialists and colonialists imposed barbaric fascist rules and a cruel policy of plunder on nations in Asia, Africa and Latin America while enforcing policies to wipe out national culture and stupefy the masses. People in these countries, who had been culturally advanced over western capitalist nations and contributed to human civilization, were robbed of their languages and literature, kept from learning science and technology and left groping in ignorance and in an uncivilized state. Furthermore, most nations in these areas had their unique cultural traditions trampled down on by imperialists and colonialists and became further separated from modern technological civilization.

For example, when national liberation was achieved, the majorities in many nations were illiterate. Many nations lacked their own languages and literature and were without universities, and many countries did not have their own national cadres and technical staffs, teachers and doctors to run national economic institutions, factories, and enterprises.

Newly emerging nations could not tackle the difficult and complicated task of building a new world and make any progress so long as their remained the cultural backwardness left by the imperialists and colonialists.

The fight for construction of a new life in newly emerging nations is a battle to discard all elements of backwardness and create new forces in all sectors of political, economic, cultural and social lives, as well as a struggle to independently explore their own destinies by liberated workers who hold their fates in their own hands. This fight demands that all problems that arise in the course of construction for a new life be solved by the peoples' own effort, and this is the only way to effectively undertake the difficult and complicated task of building a new world to conform to their nation's own needs.

In order to do this, the overall cultural standard of the people, who are the masters and driving power of revolution and construction, should be raised to the highest level and, subsequently, prepare them as capable construction workers, thereby contributing to the development of science and technology and the blossoming of culture and arts.

Only through this kind of effort can the infinite creative power and wisdom of the people be enhanced and put to use in revolution and construction forcefully, thereby enabling them to rely on their own resources to build factories and enterprises, and properly manage and operate vested companies and banks, and promote the education and raising of the new generation in such way that they can be entrusted with the task of shouldering the nation's destiny.

Only through rapid development of all sectors of national culture can the increasing cultural demands of the people be met, thereby raising their overall cultural standard, eliminating dependency on western imperialism

and national nihilism, and lifting national pride and self-respect. This will also help check the ideological cultural infiltration of imperialists.

The fight of newly emerging nations to develop their national culture is, indeed, a battle to insure complete national independence and sovereignty, as well as a civilized and happy life for the people.

Therefore, today's newly emerging nations are placing an equal importance on national cultural development and economic self-sufficiency and are forcefully struggling to develop a new culture.

Many newly emerging states have begun a crusade against illiteracy and have gained great achievements. Not a small number of nations have taken nationalistic measures to support the crusades with such revolutionary slogans as: "Eradication of illiteracy is a revolutionary duty" or "to learn is to love the country." Iraq has adopted a law on eradication of illiteracy, and is now enforcing it, and many other nations including Laos, Angola, Peru and Burma, are enthusiastically mobilizing the masses for wide participation in the crusades against illiteracy. Tanzania has been able to remove illiteracy among over 5 million people in the past 5 years, and in Somalia, where once the absolute majority were illiterate, now about 75 percent of the population can read and write. General educational levels in many other countries are rising.

In their effort to develop national culture, newly emerging nations are devoting great efforts to educational programs.

There are many newly emerging nations which have created new national languages, are revising the contents of educational programs so as to fit their own needs, are engaged in constructing, on a large scale, all levels of schools, editing textbooks using national languages, and are educating national cadres, technicians and professionals as well as developing the sciences and arts.

At the same time, newly emerging states are on the alert against ideological and cultural infiltration by imperialists, and are staging wars to keep them off, and there are many countries which have closed their doors against and chased away the corrupt reactionary bourgeois culture propagated by cultural organizations of imperialists and their hired buglers, and are daringly banning the distribution of reactionary publications and movies of imperialists.

Through development of national culture, today the general literacy rate of workers in newly emerging nations is rising day by day, and there is a steady growth of national technical cadres. Furthermore, national organizations, factories and enterprises are being efficiently run by their own national technical cadres, and the creative power and revolutionary zeal of workers are ever more being strengthened.

Today's newly emerging nations are devoid of self-admiration despite the achievements in the construction of national culture, but rather treat the task as one that is important for national construction and development and are steadily and firmly pursuing it.

There is no doubt that newly emerging nations can hope for new achievements when they mount a stronger battle to construct national culture and remove the cultural backwardness inherited from past colonial rule.

NINE WAYS TO CAPTURE THE 8.5 MILLION TON FOOD GRAIN PINNACLE OUTLINED

Pyongyang NODONG SINMUN in Korean 7 Jul 77 p 1

[Editorial: "Let Us Turn All Wet and Dry Fields into 'Total Bumper Crop Fields' and Capture the 8.5 Million Ton Food Grain Pinnacle Without Fail"]

[Text] Holding high the programmatic instructions which the great leader Comrade Kim Il-song issued at the 13th Plenum of the Fifth Party Central Committee, the workers of the entire nation are preventing possible damages by drought and are vigorously stepping up the confrontation of the farming battle. Amidst this, members of the Sangso Cooperative Farm, Anju County, South P'yongan Province, have raised the torchlight of new innovation high, with a gigantic significance for implementing the task of food grain production during the current year without fail.

Having held high the militant slogan, "Let Us Turn All Wet and Dry Fields into 'Total Bumper Crop Fields' to Fly High the Victorious Banner on the 8.5 Million Ton Food Grain Pinnacle," members of the Sangso Cooperative Farm pledged to capture the proposed targets for increased food grain production without fail. That is, to weed wet and dry fields once or twice more than called for in the technical indexes, to formulate a scientific fertilization system to cause food crops to grow evenly without variations among the different fields and pieces of land, and to apply chemical fertilizers according to the demands of technical requirements, to apply additional manure for each stalk of corn, to fully operate all pumping facilities as long as drought should last, to fully irrigate corn fields, and to fully introduce advanced methods of fresh water supply for wet fields. They have also resolved to guarantee a program of 100 percent pollination of corn by applying pollen effectively, and to harvest fully matured food crops without fail by making fall harvest preparations.

With an indefatigable passion and vigor, all workers and agricultural volunteers are now tenaciously translating their resolution into practice.

The revolutionary initiative of members of the Sangso Cooperative Farm to transform all wet and dry fields into "total bumper crop fields" in order to provide great bumper food crops once again this year, and the militant

slogan proposed, are expressions of the burning loyalty of our agricultural workers, who most effectively support the noble intention of the great leader, who continues the epoch-making development of agricultural production and for the happiness of our people. Those are also the manifestations of their revolutionary will and militant vigor to sweep aside any and all difficulties which lie in the path of advancement, and to achieve a great push once again in agricultural production.

The battle slogan that the agricultural fighters of Anju have raised, and their initiative, vigorously summon the agricultural workers of the entire nation to the impending agricultural battle, including weeding.

The struggle to turn both wet and dry fields into "total bumper crop fields," -- this is a mass innovation movement of agricultural workers who want to thoroughly carry out the chuche farming method, the policy enunciated by our great leader for each kind of plant farming, to cause all plots of land and all kinds of plant crops to bear ample fruition, and thus to achieve once again a great food grain bumper crop this year. It is of gigantic significance in propelling the struggle to occupy the 8.5 million ton food grain pinnacle this year.

In his New Year's Address this year, Comrade Kim Il-song the respected and beloved leader, taught, "In the agricultural sector we must establish full countermeasures to prevent the impact of the cold front, carry out farming scientifically and technically in accordance with the demands of chuche farming methods, and thus generate a great leap in food grain production once again this year."

To capture without fail the 8.5 million ton food grain pinnacle this year is the glorious revolutionary task assigned to functionaries and workers in the agricultural sector.

This important task can be effectively carried out only if we meet the demands of chuche farming methods, with emphasis on farming each type of crop, and raising each crop scientifically, technically, and with earnestness.

Thanks to the wise guidance of our great leader, who always brightly illuminates the future path of agricultural development, the devoted struggle of agricultural workers, and of the entire people, farming conditions have been very favorable thus far.

When our agricultural workers hold higher the revolutionary slogan, "Production, Study, and Life -- All in Accordance With the Anti-Japanese Guerrilla Style!" and wage a massive struggle to turn all wet and dry fields into "total bumper crop fields," thoroughly carry out weeding in wet and dry fields, and apply fertilizers liberally, thus taking better care of food grain crops that have grown well so far without fluctuations, and thus making every piece of land, every ridge in fields, and each kind

of crop bear ample fruit, undoubtedly the banner of victory will fly on the 8.5 million ton food grain pinnacle.

The mass struggle to transform all wet and dry fields into "total bumper crop fields" -- this is a vigorously advancing forward movement to generate a continuous upsurge and push in the attainment of agricultural development by successfully winning over the impact of the cold front, which is having catastrophic effects throughout the whole world, and to fully guarantee growing conditions for food grain crops in both wet and dry fields. The movement is also to further glorify our socialist rural economic system, which prospers more and more under the rays of the great agrarian theses.

The basic problem which determines the success or failure of agricultural production is to thoroughly prevent the damages of drought caused by the impact of the cold front.

Even amidst severe droughts, we now have a chuche irrigation system which permits irrigation water to flow abundantly at each cooperative farm, providing a strong basis for agricultural production, and there is also the policy proposed by our leader for utilizing underground water.

When our agricultural workers and support personnel vigorously launch into the struggle to transform all wet and dry fields into "total bumper crop fields" in order to make the maximum use of the already available irrigation and water conservation system, to actively introduce a fresh water pumping system into wet fields, to dig both wells and pools, and lay pipes, thus gaining more underground water and more tenaciously carrying out the task of pumping water into corn fields we will be in a better position to win over drought, which may cause serious damage to beautifully growing crops. Also, we can generate a greater upsurge in agricultural production, and going a step further, we can further glorify the honor of Ch'ollima Korea, where our people lead happy lives, knowing neither famine nor drought.

The struggle to transform all wet and dry fields into "total bumper crop fields" is truly an honorable and rewarding revolutionary struggle, fulfilling the basic duty and mission of our revolutionary fighters to firmly guard the agricultural front by generating a great upsurge in agricultural production in accordance with our great leader's intentions and wishes.

All guidance functionaries in the rural economic sector and agricultural workers must fly the banner of victory on the 8.5 million tons food grain pinnacle by emulating the initiative of the members of the Sangso Cooperative Farm, Anju County, South P'yongan Province, and by vigorously launching the struggle to transform all wet and dry fields into "total bumper crop fields" in a unified manner.

Success or failure in the struggle to transform all wet and dry fields into "total bumper crop fields" is dependent on how party organizations

and guidance functionaries in the agricultural sector arouse the broad strata of the masses.

The struggle to transform all wet and dry fields into "total bumper crop fields" is in its essence, a struggle to cause every kind of food crop to reach full fruition, without fluctuations, by enhancing a master-like self-awareness among agricultural workers.

Unless everyone, no matter who he may be, devotes himself sincerely to fully meeting the demands of chuche farming methods for each kind of crop, with the revolutionary self-awareness that they must be responsible for the rice basket of the nation, good results can never be achieved in this struggle.

Party organizations and guidance functionaries on cooperative farms must clearly explain this and inculcate agricultural workers with the significance and the essential demands of the struggle to transform all wet and dry fields into "total bumper crop fields," as well as the methods for such a struggle, and they must guide the masses by their example of setting standards through their own actions. Thus, they must see to it that agricultural workers acquire a master-like spirit, dedicate themselves sincerely to each kind of crop, and raise each one frugally and meticulously in accordance with chuche farming methods.

The struggle to transform all wet and dry fields into "total bumper crop fields" demands detailed organizational work and specific technical guidance.

In order to make every piece of wet field, and each corn plant, invariably bear grains which have fully ripened, concrete guidance must be provided for the detailed characteristics of each farming process, including weeding, fertilization, watering, and the prevention of damage by blight, insects, and storms.

Guidance functionaries in the agricultural economic sector, and management functionaries of cooperative farms, must, above all, plan and organize battles and labor forces to unfailingly achieve the battle targets of weeding by stages, and they must concentrate their forces on this so as not to allow even one blade of grass to raise its head, and to apply various chemical fertilizers at appropriate times, according to technical regulations.

At the same time, after ascertaining how the food grain crops in all wet and dry fields are growing, they must meticulously plan and organize so as to vigorously wage the struggle to eliminate fluctuation in raising food grain crops by arousing agricultural workers to apply compost where it is needed, to water corn fields liberally which are suffering from drought, and to prevent cold and dampness by digging ditches where they are needed. They must effectively carry out water control and substantively implement pollination so as to guarantee more than 100 percent of corn pollination.

The struggle to transform all wet and dry fields into "total bumper crop fields" can be waged more effectively only with the active support and aid of our working class.

Support personnel, led by the working class, who have now gone to rural areas, must stand shoulder to shoulder with agricultural workers who have arisen for the struggle to create "total bumper crop fields," and they must more enthusiastically raise the flame of joint innovation. On the other hand, functionaries and workers at state economic agencies, factories, and enterprises must vigorously step up well and pool making on a mass basis, pipe-laying, and the battle to water corn fields.

The struggle waged by our agricultural workers to transform all wet and dry fields into "total bumper crop fields" is an honorable struggle designed to strengthen the economic power of our country, to raise higher the living standards of our people, and to step up the victorious advance of our revolutionary cause.

All agricultural workers and volunteers must demonstrate proud exploits in this rewarding struggle with burning loyalty to the great leader Comrade Kim Il-song, and thus once again pile up high the grains of the total bumper crop.

BRIEFS

HOUSEHOLD WORK TEAMS--Some 50-odd household work teams, composed of women family members, have been organized in Hamhung's Hoesang-kuyok [ward] for such tasks as sewing, knitting, straw work, wood working and making household utensils. The kuyok administrative committee organizes one or two such work teams in each tong and provides them assistance and guidance. As a result, the number of household work teams has increased from 30 to 50, making some 90 types of products. Some tong have solved their own raw materials needs by sending work teams into the mountains located within their area to gather materials and mountain herbs. Each tong has developed 10 chongbo of unused land and is raising wild sesame, beans and other kind of oil-bearing vegetables. The work teams also utilize scrap materials from local factories. By helping get the household work team products into the distribution network on time, the administrative committee improves the producers' will to produce and helps fill the demands of the residents for consumer goods. [Pyongyang MINJU CHOSON in Korean 19 Jul 77 p 2] 9122

MUNCH'ON LOCAL INDUSTRY--The Munch'on county administrative committee has been making central industries within the country assist local industries. Central industrial enterprises including the Mun'yong Steel Works, have helped local factories remodel or build machinery. They have made and sent machinery for making confectionaries and soy sauce to the Munch'on Soy Sauce Factory, including candy shaping machines and dough kneading machines. They devised 64 types of dies, including those for four air presses and three hydraulic presses, and sent them to a cooperative producing school supplies. RAILROAD MODERNIZATION--Seventeen enterprises in S. Hamgyong Province, including the Yongsong Machine Factory, are repairing and modernizing cargo cars, sleeping cars and luxury cars for passenger trains travelling the lines between Wonsan and Najin, Hamhung and Sinbukch'ong and Hamhung and Sohojin. The Disabled Veterans' Plastic Products Factory in Hamhung produces thousands of square meters of vinyl sheeting in support of railroad car repair. Workers and technicians at the Yongsong Machine Factory produce kitchen facilities for dining cars. The Hoesang Iron Goods Production Complex produces construction materials for interior facilities on passenger cars and plates them. The Hamhung Wood Barrel Production Cooperative, entrusted with cars for mothers with infants, is repairing interiors and remodeling berths

to make the ride more comfortable. The Yongsong Enameled Ironware Factory is also engaged in repairing passenger cars. The Hungnam Fertilizer Complex and other factories have installed automatic generators for passenger car lights and has made automatic blackout equipment. Along with 19 other factories, the Hamhung Wool Spinning Factory has resolved to completely repair passenger cars in 40 days, not 6 months. One work team of the 8 February Vinylon Factory produced 1,300 different types of construction materials for repairing the interiors of passenger cars. [Pyongyang NODONG SINMUN in Korean 20 Jul 77 p 4] 9122

SOP'Ō CARGO STATION--The large-scale concentrated cargo station at Sop'ŏ in Pyongyang is in the last stages of construction. All freight handling here will be done by machines. The station has warehouses for cement and coal and unloading yards for cartons and containerized cargo are placed on railroad spurs. Combatants of the Pyongyang Railroad Construction Office are putting finishing touches on automatic control rooms, which can automate all tasks. Construction workers handled in a short time the 20 ri or so inlet lines for extensions and cargo yards and warehouses. Warehouse construction for buildings handling hundreds of tons of cement and fertilizer also was completed in a short time. Volunteers are daily carrying hundreds of tons of gravel, sand, and rocks to the containerized cargo yards and unloading yards, and even housewives are pitching in. Workers of the Pyongyang Railroad Bureau themselves made much of the machinery necessary for the automatic control rooms and are now finishing the task. [Pyongyang NODONG SINMUN in Korean 21 Jul 77 p 1] 9122

PHOSPHATE FERTILIZER--In July, phosphate fertilizer production was more than 1.5 times the average daily results in the past half year. Functionaries of various combines are struggling to make even one ton more for forwarding faster to the countryside. The Munp'yong Smelter is a model of phosphate fertilizer production. For example, combatants of the sulphuric acid shop, by means of good equipment and technical management, keep their facilities running fully to raise acid production. They cut gas escape losses through scientific management of facilities. Using positive mobilization, they have doubled phosphate fertilizer production, compared with early in the year. Workers of the phosphate work team have raised disintegration rates 5 percent, compared with previously, and have overfulfilled their daily plan 1.3-1.5 times. Raw material handlers have increased conveyor transportation, thus raising raw material transport capacity 1.6 times. The Namp'ŏ Refinery is also normalizing high standards of phosphate fertilizer production. They are producing twice the amount they did last month. [Pyongyang MINJU CHOSON in Korean 22 Jul 77 p 1] 9122

8 FEBRUARY CEMENT PLANT--Work results at the 8 February Cement Plant show workers doubling and tripling their plans. Firing furnaces continuously spew forth clinker, which is loaded on conveyors and taken to the central warehouse. The huge facilities are run from a automated furnace control

room, where the firers watch television receivers and press control buttons to ensure full equipment usage. Warehouses, with piles of clinker, raw materials, and fuel, are loaded by crane operators, who have resolutely determined to double their daily plans. The cement shop itself has recently completed automation of the new cement crusher automatic control facilities and cement pneumatic transport pump automation facilities. Commanders at the consolidated command post, having industrial television as well as wired and wireless communication, are able to move quickly with various production control devices. [Pyongyang MINJU CHOSON in Korean 22 Jul 77 p 3] 9122

FISHERY BASE CONSTRUCTION--In response to the great leader's instructions, construction personnel have already completed work at the Onch'on and Namp'o fishery bases, and are nearing completion at Mongkump'o, Kwaksan, and Ch'olsan. Guidance functionaries of the Ministry of Fisheries and the regional fishing guidance bureau are pushing this construction. In the Namp'o region, combatants of the Map'o Fisheries Station finished embankments and landing pier construction and in the last stages on shore buildings. Workers and technicians of the Third Construction Work Site of the Yalu River Irrigation Construction Consolidated Station, working on the fisheries base at Kwaksan, have nearly completed the construction project to increase the dockside mooring area for fishing boats. [Pyongyang MINJU CHOSON in Korean 23 Jul 77 p 1] 9122

PUKCH'ANG POWER STATION--Youth power combatants of the Chollima Pukch'ang Thermal Generating Station have produced 500 million kw/hours more than in a similar period last year. Units 2 and 3 produced 3000-5000 kg/hour more per hour. The No 4 generator during one past week produced 5,367,000 kg/hours more than in a similar period last year. Youth of the No 6 generator are normalizing their fixed plan at 40 percent higher, while those of the No 7 are increasing the capacity per generator by 12 percent. [Pyongyang NODONG CH'ONGNYON in Korean 24 Jul 77 p 1] 9122

SODUSU GENERATOR CONSTRUCTION--The Honor Guard Second Construction Office, entrusted with construction of the Sodusu No 3 generator, are devoting their strength to carrying out the great leader's New Year's message. Youth construction workers, who topped their half-year plan by 32 percent, are over-fulfilling their daily plan 1.5 times. Third Shop young power workers, by attending to labor organization and renovating techniques, completed upper passage construction in 20 days. [Pyongyang NODONG CH'ONGNYON in Korean 24 Jul 7 p 1] 9122

YONGDAE COAL MINE--Fires of the coal revolution are burning at the Yongdae Coal Mine. One company's determined target is normalizing work at 30 percent above their coal production plan every month, and within that, presenting 20 percent to the nation as "patriotic coal." Last May, the first company of the Youth Production Pit of the Namjon Coal Mine, normalizing monthly coal production at 10,000 tons, which was 25 percent above the national plan, presented 1,000 tons to the nation. Company personnel have set high goals based on scientific capabilities, calling for normalizing coal production at 10,000 tons monthly and presenting 20 percent to the country. [Pyongyang MINJU CHOSON in Korean 24 Jul 77 p 3] 9122

ORE TRANSPORT--The Kimch'aek Steel Works is achieving great results in construction cargo station, having established buildings and facilities including interior track, cement warehouse, lumber unloading yard, and coal unloading yard. Steel combatants of Songjin Steel Works and miners of the Musan Mine are constructing concentrated cargo stations. Party personnel and workers at the Hwanghae and Kim Chaek Iron and Steel Complexes and the Ch'ongjin Steel Works, 13 April Iron Works, Songjin and Kangdok Fire-resistant Materials Factory, and the Changsan Mine are struggling to produce containerized cargo facilities quickly. Workers of the Kim Chaek Iron and Steel Complex, which also has its own spur line, repair freight cars, and have already made 200 of them like new. [Pyongyang NODONG SINMUN in Korean 26 Jul 77 p 1] 9122

KANGSON STEEL WORKS--Workers at the Kangson Steel Works are endeavoring to supplement before the end of the year their loading and unloading facilities, including cranes for completing private spurs so that trains can be loaded within one or two hours of arrival. They are fully equipping their raw materials and fuel yards, with the hopes of being able to store a month's worth of raw materials and fuel by 10 October and be able to store three month's worth by the middle of next year. Workers have set the goal of manufacturing before the end of September 100 types of cargo containers and 60 others for use on private spur lines. Technicians and workers of the rolling stock unit and repair unit of the transport shop have remodeled various types of gantry cranes, and manufactured foundation cranes and 10-ton cranes. Workers have doubled and trebled their speed to accomplish quotas ahead of their scheduled completion date. [Pyongyang NODONG SINMUN in Korean 26 Jul 77 p 3] 9122

SONGJIN STEEL WORKS--Workers and party personnel at the Songjin Steel Works are laboring on the containerized cargo yard construction yard with heavy machinery, including bulldozers and excavators. Having adopted the concentrated concrete pouring method, they are implementing it over an immense work area, and are accomplishing banking work over 10,000 square meters by fully mobilizing heavy equipment. Effecting combat organization while working on containers for fertilizer and cement warehouses, they have accomplished in two months what was said to require over three months. [Pyongyang NODONG SINMUN in Korean 26 Jul 77 p 3] 9122

THERMOPOWER EXPANSION PROJECT--Construction workers at the Unggi Thermal Power Station have completed the assembly of individual facilities such as turbines, generators, condensers, transformer substations, and transformers and are now working on the last remaining stages of assembling cables, high voltage conduits and oil pipes and insulation work. [Pyongyang NODONG SINMUN in Korean 28 Jul 77 p 1] 9122

RAILROAD ELECTRIFICATION--Construction workers of the sector concerned, including the Speed Battle Youth Shock Brigade, Railroad Department Railroad Electrification Construction Regiment, and the Hamhung Railroad Construction Unit, are pushing ahead with railroad electrification between Tanch'on and Komdok. The most difficult tasks, railroad tunnels and

enlarging stations, are being done by the Youth Shock Brigade, which has handled thousands of square meters. The Pyongyang City Battalion of the Youth Shock Brigade has essentially completed roadbed lowering and enlargement of the yard. Youth Shock Brigade personnel have completed transformer construction and are proceeding with construction to string electric wire. Electric workers of the Provincial Power Transmission and Distribution Department are aiding technicians in tasks entrusted to the Youth Shock Brigade in working to raise transmission wire towers between South Hamgyong Province's Kwangch'on and the Unch'on Station. It was extremely difficult to raise the high voltage transmission line towers while electricity was flowing through them. Workers of the Electrification Construction Regiment, having finished putting up electric poles, are stringing wire day and night. [Pyongyang NODONG SINMUN in Korean 2 Aug 77 p 1] 9122

TRANSPORT STRUGGLE--In support of the transportation revolution are the 4 June Rolling Stock Factory, which exceeded its vehicle production plan in May and June; the 6 July Railroad Factory, which increased production of spare parts; and the Pyongyang Railroad Operations Yard Passenger Train Unit, which was able to repair 126 more freight cars than planned by making 50,000 different parts during June. [Pyongyang MINJU CHOSON in Korean 2 Aug 77 p 1] 9122

4 JUNE FACTORY--The 4 June Rolling Stock Factory has set new records in axle cutting operations, and is turning out more axles than a similar period last month. Workers of the vehicle frame work team and chassis work team are daily achieving results of 2-300 percent over their plans in frame assembly and sidewall assembly. [Pyongyang MINJU CHOSON in Korean 2 Aug 77 p 1] 9122

RAILROAD ACCESSORIES--The 6 July Railroad Factory is producing more vehicle accessories. The engineering and power shop improved the efficiency of oxygen generators, while the casting shop raised the quality of its goods. The machine shop and technical facilities shop is normalizing high standards in production of rolling stock accessories. [Pyongyang MINJU CHOSON in Korean 2 Aug 77 p 1] 9122

CARGO CARS--At the Pyongyang Railroad Operations Yard Passenger Train Unit, workers are exceeding their daily plan for cargo cars by 2-3 times, and have the goal of repairing 700 freight cars more than their plan. The technical innovations personnel have devised 20 or so new facilities, including a steel cutter and eight types of automatic screw driving machines. [Pyongyang MINJU CHOSON in Korean 2 Aug 77 p 1] 9122

SUNGHO-RI CEMENT PLANT--Workers and party personnel at the Sungho-ri Cement Plant have been normalizing high standards in production this whole year. Particularly, baking workers of the "20th anniversary of the Republic's Founding" No 1 furnace, by adhering to technical standards and excelling at self-inspection and self-repair, are roasting more and better clinker per hour workers of the cement shop run each crusher fully. The operators of crushers Nos 1, 4 and 5, by managing fuel insertion and being in close contact with crane operators, are exceeding their daily plan. Workers of

the fire-resistant brick shop have also raised their daily production 1.5-fold. [Pyongyang NODONG SINMUN in Korean 3 Aug 77 p 4] 9122

HAMHUNG RAILROAD TRANSPORT--Transport workers of the Hamhung Railroad Bureau, having adopted containerized transport, are extending it vigorously to the 8 February Vinylon Factory Station, and the Tanch'on and Omong-ri Stations. Workers of the Tanch'on and Omong-ri Stations, in cooperation with working classes of the Komdok Mine, have remodeled more efficiently some 230 ore transport containers and have reduced the stopping time for concentrated transport trains for loading ores by 1 hour 20 minutes over normal. Workers in the transport sector of the 8 February Vinylon Complex adopted a cargo container for carbide which not only reduced freight train stopping time, but also increased transport safety. Transport workers at Hamhung Station, by mobilizing internal reserves, have made 20-odd containers and were able to mechanize fully all loading on freight trains except for box cars. [Pyongyang NODONG SINMUN in Korean 4 Aug 77 p 1] 9122

NAMP'O VEHICLE TRANSPORT--Workers at the Namp'o Vehicle Transport Station will finish their yearly plan on 10 October, and are raising their actual running rate by 85 percent in order to obtain results of 20 percent more by the end of the year. They exceeded their half year transport plan by 10.7 percent in the first two months of the "200 days of transport revolution." They also exceeded their July freight handling plan by 12.6 percent and are exceeding their August daily transport plan by more than 10 percent. [Pyongyang NODONG SINMUN in Korean 4 Aug 77 p 1] 9122

CH'ONGJIN MARITIME TRANSPORT--In the water transport sector, combatants of the Ch'ongjin Maritime Transport Station will carry out this year's cargo transport plan by 9 September, and are determined to exceed it by 30 percent by the year's end. To do this, they have the goal of raising their ship utilization rate by 88 percent and cut 1.5 weeks off ship turn around time. They are also completing the 15-day ship repair system. [Pyongyang NODONG SINMUN in Korean 4 Aug 77 p 1] 9122

NAMP'O TRANSPORT UNIT--Transport combatants of the Map'o Vehicle Transport Unit set the high combat goal of fulfilling their year's plan by 10 October, and by overfulfilling the plan by 20 percent by the end of the year. They are struggling to raise the vehicle actual running rate more than 85 percent. The unit overfulfilled this year's half-year plan by 10.7 percent, and exceeded their July freight handling plan by 12.6 percent. [Pyongyang MINJU CHOSON in Korean 5 Aug 77 p 1] 9122

SUPPORT TO VEHICLE TRANSPORT--The Land Transport General Bureau, along with leading functionaries of each province's administrative committee transport management bureau and vehicle work stations, are dispatching trucks and drivers to match freight volume and kind, transport direction and section. They are also managing repair bases for the vehicles. Workers in the Kangwon Province Administrative Committee Transport Management Bureau are working to pull more coupling wagons, while workers at Kumgang and Kosong Vehicle Work Stations are carrying a few dozen more tons of freight daily than planned.

The Wonson First Vehicle Work Station raised the load capacity of their vehicles and raised results in hauling freight on coupling wagons. The combatants of the Oro Vehicle Work Station of the South Hamgyong Province Administrative Committee Transport Management Bureau raised their vehicle utilization rate by establishing a vehicle repair full equipment system and getting drivers to understand technical management of vehicles. The Hgonwon Vehicle Work Station, with good transport organization, carried out its July transport quota in 12 days and filled their daily transport plan 1.5 times. [Pyongyang MINJU CHOSON in Korean 5 Aug 77 p 1] 9122

LONG DISTANCE TRANSPORT--Fighters in the Pyongyang Long-distance Vehicle Management Bureau overfulfilled their daily plan 1.5 times. Workers of the First Long-distance Transport Unit and the Second Unit are struggling to carry raw materials and goods in faster time. The Chagang Province Long-distance Vehicle Transport Unit lessened vehicle turn-around time, thus raising its operations rate more than 80 percent. Workers of Long-distance Vehicles Nos 5725, 5705, and 5707 are ensuring full operations by making attachments themselves. [Pyongyang MINJU CHOSON in Korean 5 Aug 77 p 1] 9122

MARINE TRANSPORT--Workers of various marine transport stations in July are loading 1,000 tons more cargo daily than their daily average in June. Many ships, including ship No 2505 at the Ch'ongjin Marine Transport Station and ship No 2803 of the Hungnam Marine Transport Station are exceeding their yearly plans. Workers at the Hungnam Station have thoroughly established a command and control system, have raised high standards for concentrated transport as well as specialized transport, raised their boats' use rate, and harmonized long and short hauls to eliminate empty boat runs. Marine transport combatants have put up a boat repair basin and have thoroughly established a 15-day boat repair system at the Hungnam Station. To this end they have prepared spare parts and spare engines separated by standards and classifications so that concentrated repair begins as soon as the boat is in the dock. [Pyongyang NODONG SINMUN in Korean 30 Jul 77 p 1] 9122

NORTH P'YONGAN TRANSPORT--In North P'yongan Province, transport combatants of stations and factories having private lines are achieving continuous high results in cargo handling. Stations, under the guiding assistance of party organizations and Three Revolutions Teams, have established efficient loading and unloading facilities, and during the last two months have handled 50,000-odd tons more than their plan. Workers of the Sinuiju and Yomju Stations, who have exceeded their cargo transport plans every month since the "200 days of transport revolution" began, have constructed many more mechanical facilities for loading freight. Workers at the Chongju Youth Station, using the concentrated system as soon as cargo arrives, have reduced handling time by more than an hour compared with their plans. Workers at Tikhyon, Sakchu, Yongch'on, T'aech'on, and Kuchang Stations are also well organized for concentrated transport. The Sinuiju Chemical Fiber Plant has set up efficient loading machinery, including various cranes, for handling fuel and resources in the spur line of its storage yard. [Pyongyang NODONG SINMUN in Korean 30 Jul 77 p 1] 9122

SUPPORT TO TRANSPORTATION--Workers and steel works functionaries under the Ministry of Metallurgical Industry are giving support to the "200 days of transport revolution." Steel workers at Kangson and miners at Musan are investing labor in production of transport containers, private railroads lines, and freight car repair, including concentrated transport station construction. The working classes of Kim Ch'aek Iron and Steel Complex have remade many freight cars as good as new and sent them to the transport front. In a short time, steel workers at Kangson have made base cranes and 10-ton cranes, and remodeled gantry cranes to be used on private railroad lines. Workers of the Songjin Steel Works and the Musan Mine are now constructing concentrated cargo stations. Taking the lead in cargo container production are: the Hanghae and Kim Ch'aek iron and steel complexes, the Ch'ongjin Steel Works, the 13 April Iron Works, the Songjin Fire-resistant Materials Factory and the Yuson Fire-resistant Materials Factory. The working classes under the Ministry of Metallurgical Industry have set the goal of 1,000 cargo containers by 20 November. [Pyongyang MINJU CHOSON in Korean 28 Jul 77 p 2] 9122

CONCENTRATED TRANSPORT SUPPORT--Functionaries of the construction offices which went down to the Panch'uk, Ch'angp'yong, and Musan Stations have generally solved technical problems in cooperation with the workers in building concentrated cargo stations, and have also dispatched technical functionaries to the spot to solve important problems. Steel workers from Kim Ch'aek Iron and Steel Complex completed the Panch'uk Station concentrated transport yard by reducing planned construction time by one-third. Functionaries of the Ministry of Metallurgical Industry's Engineering and Maintenance Office are taking the lead in standardizing plans, and, with positive mobilization of resources, are organizing methodical business administration according to the needs of concentrated transport. [Pyongyang MINJU CHOSON in Korean 28 Jul 77 p 2] 9122

PROCESSED STEEL--The Hwanghai Iron and Steel Complex and 13 April Iron Works have overfulfilled their support plans in processed steel by 1.5 times, in support of the transport revolution. [Pyongyang MINJU CHOSON in Korean 28 Jul 77 p 2] 9122

8 NOVEMBER MINE--Miners of the 8 November mine exceeded their July plan and, by enlarging and modernizing facilities, are increasing ore production. Taking the lead in pit construction and drilling, the miners are holding technical innovation meetings and experience exchange meetings. They have widely adopted technical and advanced work methods including the new core extraction rift and core extraction blasting methods, and have raised their per unit index more than 1.5 times. Miners of the Mansan Pit, having adopted the new cutting method and using intrusion rock drills, excavators, and conveyer belts, set a record in ore production. They blast 10,000-20,000 tons at a time in the pit. One squad, for example, raised concentrated ore production 3 percent and extraction rate 2 percent above their planned index. [Pyongyang NODONG SINMUN in Korean 6 Aug 77 p 1] 9122

SONGJIN STEEL WORKS--The Songjin Steel Works, one of our country's reliable ferrous metal bases, is struggling to produce more steel. They over-filled their second quarter plan, and in July, produced considerably more steel and rolled steel in comparison with their daily average results over the second quarter. Melters of the Chollima Steel Shop are running their facilities to the maximum, depending on scientific means, such as industrial television, to continue work in conditions unfavorable to furnace operations. The melters of electric furnace No 13, by adopting broadly certain advanced melting methods, cut an average of 30 minutes off steel-making time. Melters of No 4 electric furnace achieved continuous insertion to suit the oxygen-free melting process, and, accordingly, in July, drew out molten iron once or twice more per day. One work team at the 280mm rolling machine is working to complete this year's plan before 9 September. [Pyongyang NODONG SINMUN in Korean 6 Aug 77 p 1] 9122

SOUTH P'YONGAN MINING--Coal miners in South P'yongan Province are taking the lead in tunnelling and stripping, and by using reserve strip mines, in July raised coal production 25.6 percent, compared with the same period last year. [Pyongyang MINJU CHOSON in Korean 6 Aug 77 p 1] 9122

KAECH'ON COAL MINE COMPLEX--Miners of the Kaech'on Region Coal Mining Complex, at such places as Namchon, Choyang, and Pongch'on Coal Mines, raised basic tunnelling 1.2 times, stripping 1.8 times, and coal production 1.3 times, compared with the same period last year. At Choyang, miners adopted advanced work methods, including combined core blasting and pit blasting, and doubled stripping and coal production in July, compared with the same period last year. [Pyongyang MINJU CHOSON in Korean 6 Aug 77 p 1] 9122

TOKCH'ON COAL MINE COMPLEX--Miners of the Toksong, Hyongbong, and Chenam Coal Mines of the Tokch'on Region Coal Mining Complex, to keep in step with the rise in thermal power production of the Pukch'ang Thermal Power Station, in July increased coal production 1.8 times, basic tunnelling 1.3 times, preparatory tunnelling 1.7 times, and stripping 1.3 times, compared with the same period last year. Toksong miners doubled their basic tunnelling and raised stripping 1.4 times, with continuous drilling and continuous blasting. [Pyongyang MINJU CHOSON in Korean 6 Aug 77 p 1] 9122

ANJU MINE--The Anju Consolidated Mine raised its coal production 1.5 times in July, compared with daily results in the same period last year. [Pyongyang MINJU CHOSON in Korean 6 Aug 77 p 1] 9122

PUKCH'ANG RAILROAD BUREAU--The Pukch'ang Branch Railroad Bureau, responsible for coal transport to the Pukch'ang Thermal Power Station, has raised coal transport amounts 1.5 times daily. Workers raised the traction standard of locomotives 1.5-2 times, and have reduced loading or unloading times at stations and private spurs. They are working to reduce train idle time by 30 minutes. Branch bureau functionaries, who have gone to the Changsang and Soch'ang Stations, have done well in formation of local and direct trains, and station personnel have raised coal shipments 1.7 times above plans. Functionaries of the Tokch'on Station and train crews,

who form concentrated transport trains when freight trains arrive from the Hyongpyong Mine or the Toksong and Tokch'on Mines, have been loading considerably more coal for the power station coal yard. [Pyongyang NODONG SINMUN in Korean 8 Aug 77 p 1] 9122

STEEL PRODUCTION STATISTICS--Among the ferrous metal bases for our country stand those Kim Ch'aek and Hwanghae iron and steel complexes and Kangson. In July steel production, they raised production of steel 46 percent, rolled steel 30 percent, pig iron 50 percent, over the average monthly production results of the first half year. [Pyongyang MINJU CHOSON in Korean 14 Aug 77 p 3] 9122

SUNGNI VEHICLE FACTORY--Workers and technicians of the Sungni Vehicle Integrated Factory, who have taken to heart the great leader's teachings during his on-the-spot guidance in the Tokch'on region last march, are accomplishing new upsurges in vehicle production. Workers of the "Konsol" Vehicle Production Shop have adopted new inspection tools and technical facilities to raise the quality of rear axle manufacture. The cast steel shop, pipe shop, and head control shop are all engaged in "Konsol" Vehicle production. Party personnel and workers of the "Chaju" vehicle production sector, including technicians of the engine shop and workers of the Chaju No 1 Shop, have recently made a series of manufacturing facilities and testing tools. Workers of the No 3 Shop have raised the quality of gear boxes and gears. In addition, workers of the "Sungni 58" Vehicle Production Shop are struggling to raise the performance of equipment and facilities. [Pyongyang NODONG SINMUN in Korean 16 Aug 77 p 1] 9122

KAECH'ON MINING COMPLEX--Miners of the Kaech'on Region Coal Mining Complex overfilled their July plan and in August are exceeding their plan by 21 percent in basic tunnelling, 18 percent in preparatory tunnelling, 84 percent in stripping, and 14 percent in coal production over the same period last year. For example, all tunnelling squads at the Namjon Mine have raised tunnelling speed 1.2 times over the first of the year. The Youth Pit Extraction First Company "Sea of Blood" Guard Unit is determined to dig more than 11,000 tons of coal each month. Miners at the Pongch'on Coal Mine are digging out 1.8 times more coal than the same period last year. One company of open-pit miners at the Sillip Mine overfulfilled their fixed plan by 100 percent, while another pit is taking out 200 more tons daily, when compared with the end of June. [Pyongyang NODONG SINMUN in Korean 18 Aug 77 p 1] 9122

AMBASSADOR TO SOMALIA--Pyongyang, September 16 (KCNA)--The Central People's Committee of the Democratic People's Republic of Korea issued a decree on the appointment of Comrade Han Pong-chol as ambassador extraordinary and plenipotentiary of the Democratic People's Republic of Korea to the Somali Democratic Republic. AUSTRIAN GROUP'S VISIT--Pyongyang, September 16--The delegation of the Austrian Association for promotion of Relations with the DPRK, headed by its general secretary Friedrich Vogl, issued a statement before leaving Korea after a 2-week stay. The statement said that the Korean People have achieved astonishing successes in industry, agriculture and education in accordance with the principle of *chuche*. The statement also supported the proposals put forward by President Kim Il-song aimed at forcing U.S. troops to withdraw from South Korea and achieving the country's reunification by the efforts of the Korean people themselves. It said that in the last 5 years of its existence the Austrian Association for Promotion of Relations with the Democratic People's Republic of Korea has always supported this goal.
